

August 2021 Hospital General Orders

Hope everybody is safe and doing fine. Let's all hope that the Covid numbers dont get much higher. We have work to do for our veterans. There is a needs list on the Department website under hospital. These are posted for Indiana facilities if you would like to participate.

I am going to have further information at the School of Instructions on this year's hospital program. I will have quite a bit of information. There will be a raffle table and I appreciate you stopping by and maybe purchasing tickets. If anyone would like to donate an item to raffle it will be appreciated.

I will have the hospital report form ready at School of Instructions. Those are due October 1st. We will be at National Convention next week and hopefully there is new information we can utilize for our program. So, looking forward to seeing what projects some of you might want to do this year. I have a project that were going to introduce at S.O.I. and I think you will be interested.

Will see you in a couple of weeks. Hoping for a big crowd.
